

Summary

Oracle APEX Developer focused on enterprise application development across the Oracle ecosystem: SQL and PL/SQL at the core, ORDS-backed REST APIs at the boundary, Jasper Reports and Apache ECharts for reporting and visualization, and hand-tuned HTML/CSS/JS wherever APEX defaults aren't enough. Focused on clean data models, predictable performance, and interfaces that stay out of the way.

Experience

Oracle APEX Developer — Enterprise Applications Team (2023 — Present)

Leading development of internal enterprise applications end to end — data model, PL/SQL logic, APEX front end, and reporting. Own REST API integrations via ORDS.

Oracle Database & PL/SQL Developer — Database Development (2023 — Present)

Schema design, query optimization, and PL/SQL package development for high-volume transactional systems.

Reporting & Dashboard Developer — Business Intelligence (2023 — Present)

Built Jasper Reports for finance and operations; introduced Apache ECharts dashboards replacing static monthly reports.

Web Developer — Web Development (2022 — Present)

Built responsive websites and internal tools with HTML, CSS, and JavaScript.

Skills

Oracle: Oracle APEX, Oracle SQL, PL/SQL, Oracle Database, Oracle ORDS, REST APIs

Reporting: Jasper Reports, Apache ECharts

Frontend: HTML5, CSS3, JavaScript, Responsive Web Design, UI/UX

Tools: Git, GitHub, Microsoft Office Specialist

Education

Bachelor's in Computer Science — University of Central Punjab (2025 — Present)

Focused coursework in database systems, software engineering, and web technologies.

Certifications

Oracle APEX Development • Oracle SQL & PL/SQL • Microsoft Office Specialist • Responsive Web Design • Database Design & Modeling
